Document Retention and Disposal

Policy and Procedure

Retention of Documents Policy

The Parish Council recognises that efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the Parish Council. This document provides the policy framework through which this effective management can be achieved and audited.

Scope of the policy

This policy applies to all records created, received or maintained by the Parish Council in the course of carrying out its functions. Records are defined as all those documents which facilitate the business carried out by the Parish Council and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

A small percentage of the Parish Council's records will be selected for permanent preservation as part of the Council's archives and for historical research.

Responsibilities

The Parish Council has a corporate responsibility to maintain its records and record management systems in accordance with the regulatory environment. The person with overall responsibility for the implementation of this policy is the Clerk to the Parish Council, and she is required to manage the Council's records in such a way as to promote compliance with this policy so that information will be retrieved easily, appropriately and in a timely manner.

Retention Schedule

Introduction

A Retention Schedule is a list of records that need to be kept by Binfield Heath Parish Council for a specific length of time. This schedule contains recommended retention periods for records created and maintained by the Parish Council and refers to all information regardless of the media in which it is stored: manual files, photographs, electronic files, tapes etc.

The aim of the Retention Schedule is to provide a consistent approach to the way the Council handles its records and to provide a clear set of guidelines.

It identifies which records may be worth preserving permanently as a part of a local authority archive as well as preventing the premature destruction of records that need to be retained for a specific legal, financial or statutory period.

This Retention Schedule details the function of each record, its type and the length of time the Council should hold the record before taking disposal or archive action. Many retention periods are determined by statute.

Retention of Documents Procedure

Under the Freedom of Information Act 2000, the Parish Council is required to maintain a retention schedule listing the record series which it creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

The Clerk is expected to manage the current record keeping systems using the retention schedule and to take account of the different retention periods when creating new record keeping systems.

Planning Applications

All planning applications and relevant decision notices are available at SODC. Although there is no requirement to retain duplicates locally, copies of all plans will be retained until the building work is completed. Contentious plans and applications which have been refused will be

retained for future information. All Parish Council recommendations in connection with these applications are recorded in the Council Minutes and are retained indefinitely by the Clerk and are held on the SODC Planning Portal.

Disposal procedures

All documents that are no longer required for administrative reasons should be shredded and disposed of if confidential.

This document was considered and ratified at the Parish Council meeting on July 23, 2018. It is to be reviewed in two years, or sooner if legislation dictates.
